Re: NSTAR Electric, D.T.E. 03-121

Dear Secretary Cottrell:

Enclosed for filing in the above-referenced case, please find an original and six (6) copies of NSTAR Electric's third supplemental response to Information Request AG-01-19 (Supp 3).

Thank you for your attention to this matter.

Very truly yours,

A handwritten signature in black ink, reading "David S. Rosenzweig". The signature is fluid and cursive, with the first name "David" being particularly prominent and stylized.

David S. Rosenzweig

Dated: April 6, 2004

Information Request AG-1-19 (Supp 3)

Please provide a tabulation of the revenue received from each self-generating customer on a monthly basis for the years 2002 and 2003 by rate component for back-up, stand-by, maintenance, and supplemental services, including Standard Offer and/or Default Service, if applicable. Identify each customer by a code that indicates the tariff or contract under which they receive each type of service (the codes for contract customers should agree with codes for the contracts provided in a previous response). Include the kWh and kW/kVA bill determinants for each rate element.

Third Supplemental Response

Please see Attachment AG-1-19 (Supp 3) for additional information relating to the previously submitted responses. The information provided in the attachment sets forth the design capacity, the estimated annual run hours and the estimated lost kWh associated for customers with on-site generation as listed in the Company's annual QF report to the Department. As noted in that QF report, the estimated annual run hours and the resulting lost kWh are supplied by the customer or estimated by the Company and do not represent metered quantities. As such, the accuracy of the estimated run hours and lost kWh is uncertain.

NSTAR Electric
